RFP No. P24001
VOIP Phone System/Services

Questions & Answer Responses

Question #1 Answer: *Are you asking for a conference phone handset and to help us better understand, what is line requirement?*

We are looking for a conference phone handset.
"line requirement" refers to the Network port connects by way of data line(cat 6 cable) connects to handsets and then connect by way of cat 6 cable line to a computer.

Question #2 Answer: *Is it possible to ask for and be granted an extension to submit our response?*

There are no extensions. We are looking to start a new contract by May 1st. We gave our information of location and number of handsets, and now we are looking for what services do you provide with respect to VOIP business phone services and what is the cost for those services.
